Find it. Trust it. Move. Every listing is real.

What hurts agents in Georgia today

Duplicate posts

The same property appears five times at five prices, and your listing gets undercut.

Fake and stale ads

Sold or invented properties stay online and waste your clients' time.

No real prices

Asking prices only. Nobody knows what properties actually sold for.

No cooperation

Agents compete for the same owner instead of sharing buyers.

GLS fixes this

Every property has one listing, confirmed by its owner

Modeled on MLS systems US REALTORS® members use every day

Cadastral code checked, so a property can be listed only once

Owner confirms every listing by email

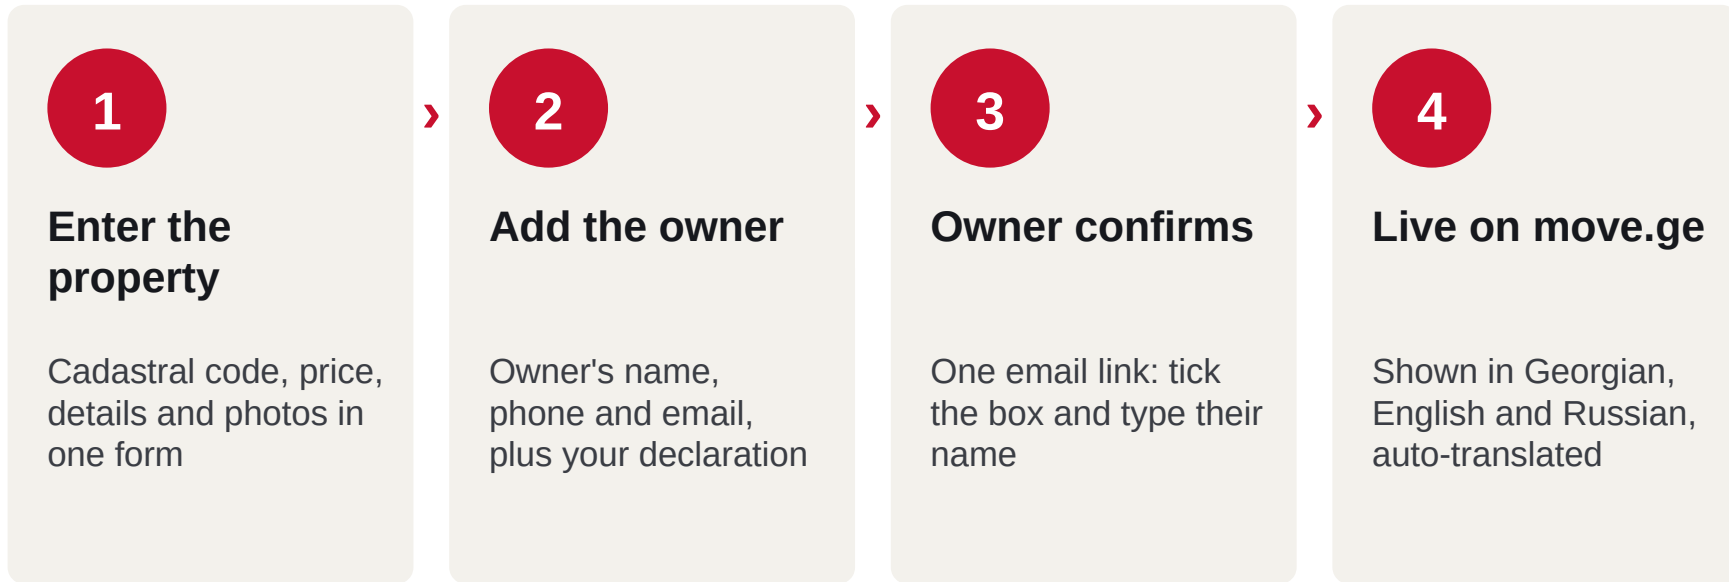

Weekly status checks remove sold properties

Closed prices recorded for honest market data

How a listing goes live

Professional tools included

Client CRM

Contacts, pipeline, follow-up tasks and shared links

Co-broke messaging

Message other agents and offer a commission split

CMA and market reports

Branded reports in three languages

Saved searches and alerts

Clients get new matches automatically

Showings

Request, approve and collect feedback online
